## 2010 ARCH TERRACE TRIPLE THREAT

61% Cabernet Sauvignon | 21% Syrah | 18% Merlot

“ An inky dark, toasty blend of our Red Mountain estate fruit. Scents of oak and dried currants on the nose mingle with peppery spice. Lush plum, blueberries, dried berries and butterscotch lead into a finish bright with raspberries and spices.”

*- Keith Pilgrim*

## VINEYARD

Terra Blanca Estate Vineyard, Red Mountain  
--Salmon Safe Certified--

## GROWING CONDITIONS

The 2010 growing season began unusually late with a very cool spring leading to a late bud break, even in the normally warm Red Mountain. The summer was unusually cool with clouds and higher humidity through all of June. Summer began in July and ran through September, which allowed for full maturity of the grapes slowly over a relatively long growing season. 2010 set the record in recorded history for the coolest growing season and will further prove why Red Mountain is the premier growing region for red grapes in Washington State verses the other growing areas. The resulting 2010 wines from Red Mountain show huge structure and complexity with restrained power and could be some of the very best ever produced from Red Mountain. Be very patient with this vintage, the wines will have very long aging potential and will reward those who cellar.

## HARVEST

Average Titratable Acidity - 0.590 g/100ml | Average pH - 3.66 | Average Sugar - 24.5° Brix

## WINEMAKING

Fermentation in both open and closed tanks with a variety of yeast types and some multiple yeast fermentation help to create wines with huge fruit flavors and fine well integrated tannins. Aged for up to 32 months in French oak barrels.

Wines were bottle aged for over 12 months prior to release.

## BOTTLE

Titrateable Acidity - 0.638 g/100ml | pH - 3.73 | Alcohol - 13.5% by volume | Production - 2985 cases
